

Times Sq-42 St

A C E N R S
1 2 3 9 7

Dont forget to re-visit
Times Square at night!
Getting there won't be
an issue – Subways are
running 24/7.

**You can travel
the world
without leaving
New York City's
5 boroughs –
all it takes
are a Metrocard
and a map.**

New York City's five boroughs are home to many popular tourist attractions, and the NYC subway system lets you travel quickly between sites and boroughs. Each subway station entrance has clear signage that tells riders what trains stop at the station. With a map of the subway system and a list of your sightseeing destinations, you can travel from Manhattan to Staten Island, with stops in between. Many of Manhattan's tourist attractions are on the same subway line, but some

destinations in the other boroughs might require separate outings.

The NYC subway system has express trains that do not stop at every station on the route during rush hour. Pay attention to the signs on each train before boarding. The Statue of Liberty on Ellis Island is a popular tourist attraction that does not have a subway station. Take the subway to Whitehall Terminal, then transfer to the **Staten Island Ferry**.

South Ferry

1 R

Liberty Plaza Park and
“Double Check” were
covered with debris and
grey, gritty ash on the
day following 9/11/2001.

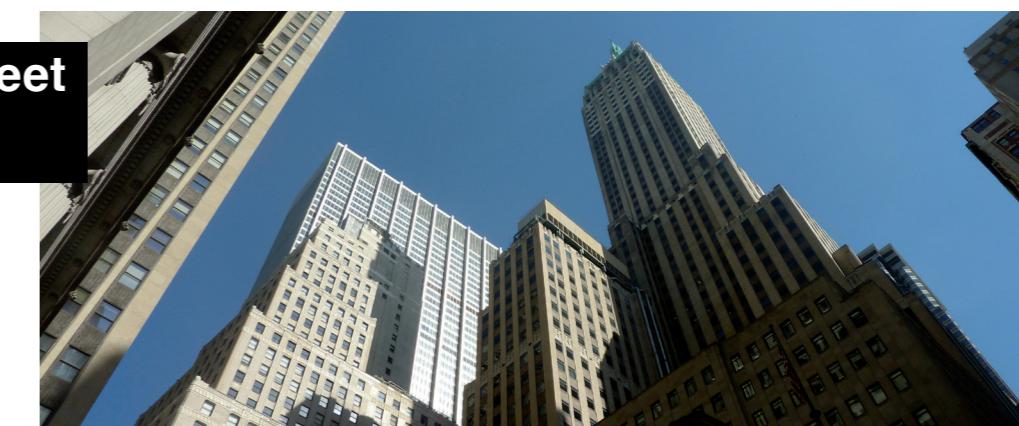

When the World Trade Towers came down, plunging New York and the country into mourning and disbelief, grey ash covered the ruins of Liberty Park. As the clouds of debris cleared and emergency responders flooded into the area, some

You can get a good view
of the Statue of Liberty
and NYCs sky line
rom the **Staten Island
Ferry**. The transit takes
about 15 minutes and a
ferry commutes every 15
minutes as well.

mistook “Double Check”, the statue sitting in side the park, for a dazed survivor. After 9/11 “Double Check” became an unofficial memorial to the murdered Financial District workers of 9/11 and remains a symbol for the middle-class man.

Wall Street

2 3

Several office buildings
of Wall Street. Most of
them are above 600
feet high and therefore
qualify as sky scrapers.
